

## SEVEN CANDIDATES FOR THE BOARD OF EDUCATION

HARRY P. CLARK,  
"American" candidate in the  
First.

BISMARCK SNYDER,  
"American" candidate in the  
Fourth.

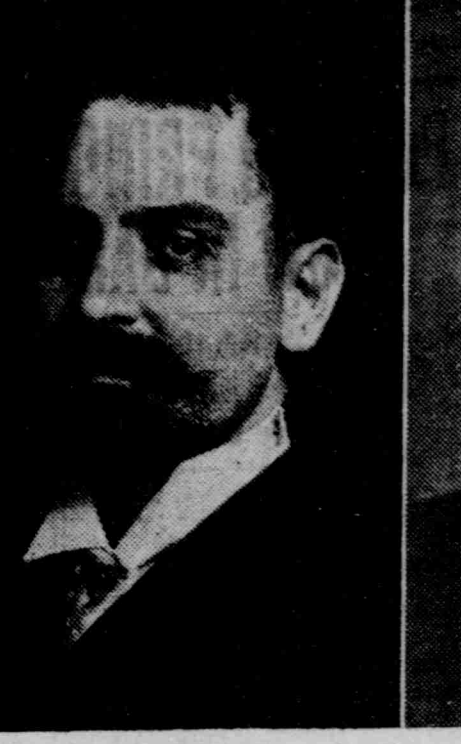

JOSEPH OBERNDORFER,  
Candidate on both tickets in the  
Fifth.

C. S. MARTIN,  
"Non-partisan" candidate in the  
First.

O. W. MOYLE,  
"Non-partisan" candidate in the  
Third.

MATHONIAH THOMAS,  
"Non-partisan" candidate in the  
Fourth.

GEORGE S. SMITH,  
"American" candidate in the  
Second.

REACTION IN THE MARKET  
STEEL AND COPPER INDUSTRIES  
NOT AT FLOOD TIDE.

New York, Nov. 29.—The play of conflicting opinions reflected in the action of the securities market last week had to do with the effort to adjust the relative force of the undiminished confidence over the commercial and industrial outlook and the question of how far that outlook had been discounted in the speculation. Restoration of the previous week's decline in prices was quickly and easily effected, aided by the requirements of the short interest left uncovered on that decline. The tone of hesitation and uncertainty appeared after the recovery and indicated a degree of reluctance of buyers in following prices to new high stages. Transactions underwent a decided shrinkage in volume, no single day's dealings rising to a full million shares.

**Outsiders Quit Nibbling.**  
The decrease was attributed in large part to a subsidence of the general outside participation in the market and operations lapsed into professional hands. In these hands skillful use was made of an occasional decline to push the price fluctuations to an extreme, but the continual changes in the current indicated the superficial character of some of these influences. The falling tendency of the week before was made the most of when the week opened by professed uneasiness over the effects in pending revision of import duties of the magazine article on the subject by Andrew Carnegie. The stand taken by the former iron master in favor of abolition of duties on steel, it was feared, would give a new turn to the proposed tariff revision such as the financial district has been inclined to assume had been averted. Political discussion bearing on a reported divergence of view on this subject between the incoming administration and the leaders of the house of representatives, was calculated to emphasize the effect of this influence.

**Metals Heavy.**  
There was also some discussion of the tone of the market for steel products which indicated a slackening of the rate of expansion in that industry indicated by the influx of orders released by the passing of the elections. The reaction which has occurred in the price of copper metal was another index of a failure of maintenance of the full rate of reparation of consumptive demand or of speculative excess in anticipating that demand. A heavy tone in the metal industrial was a consequence, and this persisted to some extent even in the periods of recovery in the general line of the stock market.

**Dakota's Gold Production.**  
Pierre, S. D., Nov. 29.—The report of the state mine inspector shows South Dakota's gold production for last year to have been \$2,000,000, the highest in the history of the state.

that stock. The reaction was perfunctory in itself, but the speculative element viewed it as a preliminary to putting into operation some important general financial plan dealing with Southern Pacific and possibly Union Pacific. The head of those systems has been credited in the estimation of the habitual speculative element with a large share in the fostering measures which have sustained and advanced prices all through the late summer. Belief that further measures calculated to stimulate speculative buying were in prospect from that source, awakened lively apprehension among the professional bears and a substantial short interest was driven to cover.

**WORLD RETRACTS STORY**  
Admits in a Telegram to Von Buelow That Alleged Interview With Kaiser Was a Fake.  
New York, Nov. 29.—The New York World, which recently published what it explained it then honestly believed to be a correct synopsis of the interview given by the German emperor to Dr. W. M. Bayard Hale, and subsequently suppressed, has sent the following cablegram to Chancellor Von Buelow:

"Prince Von Buelow, imperial chancellor, Berlin. After a painstaking investigation, the New York World finds no convincing basis of fact for the published synopsis of the Hale interview with his majesty, the German emperor. It accepts your verdict that alleged interview ascribed to the emperor stupidly absurd words which he cannot have uttered. As a matter of simple justice to the German emperor and the German people the World will print an editorial Monday morning expressing its sincere regret at the publication of a synopsis which it regards as misleading and mischievous. It was an honest mistake committed merely through oversight without the knowledge of the proprietor or chief editor, and so late at night that the article did not appear in the first edition. Proofs of the synopsis and this was naturally accepted as evidence that the article as printed was personally approved by him."

**"THE NEW YORK WORLD."**  
In publishing the foregoing cablegram tomorrow the World will state that the synopsis was submitted to Dr. Hale prior to its publication and that "ten words from him would have made publication impossible."

**OPERATIONS RESUMED.**  
Huntington, W. Va., Nov. 29.—More than two thousand coke ovens in the Norfolk & Western fields, which have been idle for almost a year, resumed operations tonight.

**PIERCE'S GOLD PRODUCTION.**  
Pierre, S. D., Nov. 29.—The report of the state mine inspector shows South Dakota's gold production for last year to have been \$2,000,000, the highest in the history of the state.

With the school election only two days distant, interest centers in the contests in the First, Second and Fourth wards. In the Fifth ward no candidate has been selected to oppose the present member of the board and the result in the Third is a foregone conclusion.

In the First ward, Harry P. Clark will oppose Charles S. Martin, the present member of the board. Though he was nominated by the "American" party, it is the claim of the supporters of the candidacy of Mr. Clark that he is just as much of a non-partisan candidate as Mr. Martin, who is running on the so-called "non-partisan" ticket.

Mr. Clark is cashier of the Commercial National bank, and is very popular with his acquaintances throughout the city. His knowledge of public affairs and especially of educational affairs makes him especially well qualified for the position as member of the school board. Mr. Martin is of the Martin Coal company. He has been a member of the school board for the past four years.

In the Second ward George S. Smith, a contracting builder and architect, is nominated on the "American" ticket to oppose the re-election of Arnold G. Glaue, who is running on the "non-partisan" ticket. Glaue is being opposed by a number of influential people in the ward, who declare that he does not represent the majority of the people of the ward. The "American" carried this ward a year ago for councilman against fusion candidates and are hoping to win in the school election this year.

The record of Oscar W. Moyle as a member of the board of education from the Third ward for eleven years such an excellent one that his re-election is certain. His "American" opponent is John D. Hagerman. In the Fourth ward Mathoniah Thomas, a "non-partisan" candidate, has as his "American" opponent Bismarck Snyder. Mr. Thomas has been an efficient member of the school board for a number of years and his friends, irrespective of party, are urging his re-election.

**DIES FROM HEART FAILURE.**  
Richard Filse Passes Away While at Breakfast Table.  
Richard Filse, 75 years of age, residing at 24 Gale avenue, died suddenly on Sunday evening. Mr. Filse had completed his evening meal and was seated at his table in an easy chair for his quiet evening's rest. His wife, a year his senior, for a few minutes sat beside him, chatting, and then went into the kitchen. Returning there she resumed her conversation, which was interrupted by finding her husband apparently dead. Shaking him by the arm, Mrs. Filse was horrified to find her husband dead. She immediately summoned her neighbors, and the police were notified.

Examination showed that Mr. Filse had died from heart failure, sinking into the death sleep suddenly. The cause of death was heart failure, and the death was sudden. He had lived in Salt Lake for the past fourteen years and later had acted as a janitor of the Fifth ward meeting house.

A stepdaughter, Mrs. Sullivan, is the proprietor of the Ramona rooming house at Second South and Second East streets.

**STRIKE IS SETTLED.**  
Marble Workers Secure Minimum Wage of \$3 Per Day.  
Denver, Colo., Nov. 29.—Through the efforts of Arthur Price, national president of the marble workers, the trouble between the local union of marble workers and the W. B. Thompson Manufacturing company, which resulted in a strike last May, was settled today. The settlement was for \$3,000 damages, to which American Federation of Labor officials were made party defendants, has been settled.

President Gompers and Vice President Mitchell of the federation were served with summons while attending the Democratic national convention here.

**TRIAL TO BEGIN.**  
Suit to Dissolve Harriman System to Start in New York.  
New York, Nov. 29.—Sylvester G. Williams of Denver, who was recently appointed special examiner for the United States government in the anti-trust suit brought to dissolve the Harriman railroad system, arrived here today and announced that he would begin the taking of testimony.

According to Mr. Williams, it will take almost a year to complete the task. E. H. Harriman will probably be called upon to give evidence.

**MILLIONAIRE KILLED.**  
Wealthy Sugar Planter is Murdered in Cuba.  
Havana, Nov. 29.—Tirso Mesa, a multi-millionaire and a member of the London board of directors of the United Railways of its vana, was shot today on his estate near Agudo de Pasajios, Matanzas province, by Damon Victory, the local merchant.

It is supposed that the trouble arose over business matters. Mesa, who was a prominent sugar planter and the owner of much real estate in the city, was struck by five bullets. His assailant was arrested.

**PROHIBITION GROWING.**  
Louisville, Nov. 29.—Ninety-three of Kentucky's 119 counties are now totally dry, 21 are partially dry, 4 are wholly wet and the case of one county which recently voted as a unit on prohibition, is being settled by legal process in court. This is the substance of a statement issued by a local newspaper from the Kentucky anti-saloon league today.

**OLD SCULPTOR DYING.**  
New York, Nov. 29.—John Quincy Adams Ward, the oldest living American sculptor, is seriously ill here from a complication of disease, which in view of his advanced age, 73 years, causes his friends to fear a fatal termination.

Mr. Snyder, too, is well qualified for the school board and the Fourth ward is sure to be well represented, no matter which one is elected.

Friends of Mr. Oberndorfer, member of the school board from the Fifth ward, regard the fact that he was nominated both on the "non-partisan" and "American" tickets, which leaves him the unanimous choice of the Fifth ward for re-election, as an appreciation of the work of Mr. Oberndorfer as a member of the board.

Several of the candidates for members of the board of education have given expression to their views pertaining to their duties as members of the board, in case they are elected.

Harry P. Clark, candidate from the First ward, said:

"I am not in sympathy with any idea or proposition to eliminate any class, either political or religious, from the teaching staff of the schools. If any person believes that I have any sympathy with any project that has this end in view, he is mistaken. I have no sympathy for any such plan; furthermore, I do not believe that any person who has ordinary common sense contemplates anything of the sort. If I am elected, my voice and vote will speak for a high efficiency in the schools. I have no idea with reference to the service on the board other than to do my duty as a citizen. This idea of public duty does not include either partisan rivalry or religious bigotry."

George S. Smith, candidate from the Second ward, declared that neither religion nor politics could sway him from what he believed to be the best thing for the schools.

He said: "The only standard for the teaching force of the public schools should be efficiency. I would employ a member of the Mormon church as a teacher just as quickly as a believer in any other religion, provided that he or she was efficient. I should be entitled to know either the religion or the politics of an applicant for a position as a teacher. My only concern should be the efficiency of the individual."

"My position with reference to the conduct of school affairs," said Oscar W. Moyle, candidate for re-election from the Third ward, "has been somewhat misconstrued. My record as a member of the school board for eleven years should make my position clear. I have been accused of declaring that it was my purpose to exclude all eastern teachers from the schools of Salt Lake. This is erroneous. I believe that the schools are benefited greatly by the employment of a number of teachers from other parts of the country each year. After that I think that the graduates of our local institutions, providing they are efficient, should be given the preference over outsiders. The religion or politics of a teacher should not be taken into consideration. I do not know either the religion or politics of but a very few of the teachers."

Mathoniah Thomas, candidate from the Fourth ward, said: "If elected I shall devote my best endeavors to the upbuilding of the schools. If I become aware of any means whereby the schools of Salt Lake may be benefited I shall endeavor to bring them about. I see no reason why this cannot be done."

The list of polling places for the election is as follows:

**First Ward.**  
Poll No. 1—Residence T. Ferguson, 1364 South First street; district voted, 1.  
No. 2—Lochran's store, 1426 South Eleventh East; district voted, 2.  
No. 3—Residence of J. T. Roberts, 703 South Ninth East; district voted, 3.

No. 5—Leo Dykes' store, 255 J street; district voted, 46.  
No. 6—Residence of Mrs. Higham, 729 South Avenue; district voted, 47.  
No. 7—Residence of J. A. De Valley, 1133 First avenue; district voted, 48.

**Fifth Ward.**  
Poll No. 1—Residence of E. H. Fiero, 114 East First South; districts voted, 49 and 50.  
No. 2—S. H. Trumbull's store, 561 East First South; districts voted, 51 and 52.  
No. 3—Y. M. C. A. building, corner State and First South; districts voted, 53, 54 and 55.

**TO CONTEST ELECTION.**  
Adlai E. Stevenson Believes He Was  
Chosen Governor of Illinois.  
Chicago, Nov. 29.—Adlai E. Stevenson purposes a contest against Charles S. Deneen for the governorship of Illinois. The Democratic candidate has come to the belief that he received a majority of the votes cast in the election. He is now endeavoring to secure a recount of the votes. Chairman Boeschstein of the state committee, after a conference with Democratic leaders, said tonight:

"We would not be performing our duty were we not to make public testimony which we have made to the legislature. It will convince the legislature that thousands of votes were wrongfully counted for Deneen. The contest will be made."

The official canvass gave Deneen 23,164 plurality.

**REXBURG, IDA., NOTES.**  
(Special Correspondence.)  
Rexburg, Ida., Nov. 29.—At a recent meeting of the representative farmers and business men of Rexburg, held in the Rexburg Commercial Club rooms, the representative citizens of Rigby, Idaho, Fremont county into three counties, making Rexburg and Rigby county seats of the consolidated electric light and power company of Rigby, Idaho, and Rexburg, Idaho.

The proposition made to the Rexburg people was to have all that part of the country which lies south of a range line below Wilford cut off and to divide this portion into two counties. This would be the largest counties in the state and each division would have more than enough population and property to meet the requirements. The proposed new county in which Rexburg would be located would be eighteen miles wide and forty-eight miles long, and would contain about \$200,000 worth of taxable property. A committee consisting of Attorney A. M. Truman, H. J. Flamm, C. Jensen, J. R. Arlight and R. J. Constable was appointed to investigate legal and financial requirements. There are about 30,000 people in this county, so each division would have about 15,000 population.

The state land board has fixed the date Dec. 10 for the settling of the canal controversy between the owners and farmers. The present difficulty arose last spring, when protests were made against the board of directors approving the application of the company for turning the system over to the settlers. Professor Walter board and reported that other construction was necessary before the project could be put into operation.

C. G. Keller, manager of the Keller Implement company, left for Denver a few days ago. He was called to confer with implement dealers of the west in regard to ways and means of proceeding against the implement and vehicle trusts. A movement is forming to reduce the evils of the great combinations which are annually extracting unreasonable large profits from the farmers.

Ralph Hodgins, the general manager of the consolidated electric light companies of this county, was in Rexburg this week from Butte, Mont. He was accompanied by Chief Engineer W. S. Craven. The officials state that work will be pushed on the remaining stretches of the line to connect the St. Anthony, Rexburg and Teton plants. The poles of the company are to be moved from the center of the street.

READY TO FACE  
ANY SITUATION

Bulgaria Confident an Under-  
standing Will Be Reached  
With Turkey.

AN OFFICIAL STATEMENT  
PRESIDENT OF THE COUNCIL  
MALINOFF OPTIMISTIC.

Sofia, Nov. 29.—M. Malinoff, president of the council, made the following statement today concerning the present situation in Bulgaria:

"The chances of a direct understanding with Turkey are not now great, but the present government views the situation with optimism. As matters stand, Turkey is bound to see sooner or later the futility of work at cross purposes, which only will result in bringing herself under the control of others. Turkey recently has been wholly under foreign guidance, but she will not gain security until she gains the friendship of Bulgaria. This is realized by many enlightened Turks, including Kiamil Pasha, who is a great statesman."

**Financially Solid.**  
"Bulgaria's financial condition is good, despite the international crisis. European financiers consider this country an excellent customer. Local commerce has felt the effects of the uncertainty, but it has regained its normal confidence. It is a remarkable fact that there is no premium on gold in Bulgaria, although there is always a premium on gold in Serbia and Turkey."

"Good finances and a good army enable Bulgaria to resist the exorbitant demands of Turkey and await confidently the recognition of independence, which it is believed, will come in the near future. The Bulgarians prize independence highly, being convinced that it is a momentous step in the life of the nation, which it was bound to take at the first opportunity. Bulgaria found its opportunity in the revolution movement in Turkey by the Young Turks. The Macedonian question continues to affect Bulgaria vitally."

**Wishes Turkey Well.**  
"By her declaration of independence Bulgaria has taken up to a certain point, what attitude she takes face to face with Young Turkey. This government wishes Turkey well, because the experiment of reform in Turkey, the laws and customs will afford respite to the Christian population, which for so long has lived in servitude to the Moslems. Hence Bulgaria will universally avoid giving offense to Europe and her own brethren in Macedonia by opposing acts in the experiment of reform in Turkey. The way of Young Turks or doing anything to discredit them. On the contrary, this government wishes to co-operate with them, but Bulgarian independence must be realized that Bulgaria did not move too quickly, and in the reopening of the Macedonian question we will endeavor to solve it equably, in the spirit of Article 23 of the Berlin treaty, which promised us self-government with a provincial assembly and Christian government. In any case Bulgaria is not pursuing schemes of aggrandizement at the expense of Turkey."

**Bulgaria's Hands Free.**  
In reply to query as to what policy Bulgaria would pursue in case of Austro-Turkish or Austro-Turkish hostilities, M. Malinoff stated that Bulgaria's hands are absolutely free. He said further that Great Britain and the other powers were fighting the battles for hegemony at Constantinople and would naturally place their own ends first, but that Bulgaria, he added, was anxiously watching the relations, and trying to forestall trouble.

"Servia apparently intends to be the last instead of the first," he said, "to recognize Bulgarian independence. This is regrettable in the policies of a neighbor among the Slavic states, which ought to be the best of friends."
